

# SUMER

## Who we are

*SUMER* is an independent corporation that provides attentive advice and solution in the sectors of ground engineering, energy and water resources exploration. *SUMER's* service span covers wide range of activities in providing guidance and support for exploration, planning, design and projects execution.

## Take-off

Since its inception in 1995 in Turkey, *SUMER* has grown significantly, building up a diverse portfolio of regional customers and a multidisciplinary team of experts.

## Far and Wide

*SUMER* has executed projects in Europe, Middle East and North Africa through its subsidiaries in Turkey "*SUMER* mühendislik", Morocco "*SUMER-fas* engineering company sarl au" and Jordan "*SUMER* for geological and hydrogeological consultations".

*SUMER* has executed large number of geological and hydrological studies, drilled deep-water wells, and participated in construction of power plants, railways, tunnels, bridges and dams.

## Go Beyond

By 2002 *SUMER* became one of the leading companies in the field of geotechnical engineering in Turkey and the region by carrying out several projects in foundation engineering, such as "Dam / Pond Drilling Grouting Stone Columns, Mini Piles, Bored Piles, Jet Grouting and Anchorage shoring works and infrastructure works.

## Go Extra Miles

*SUMER Jordan* which was established on 2018 gives special interest to water and energy projects, with extra focus on fossil and renewable energy resource. For that purpose, *SUMER JORDAN* has built its own database that covers most hydrocarbon exploration activities in the country, conventional and unconventional, and working on getting the proper consideration for this promising sector, helped by a wide network of specialists and experts.

### Our Services

- Hydrogeological studies
- Geotechnical investigation
- Geophysical surveys
- Oil & Gas consultations
- Drilling services
